EDITORS APPEAL—Your issue of the third stant contains a notice of the death of Mrs. Mofford, at Whitehaven, on the Mississippi and Tennessee railroad, of yellow-fever. I was called to see Mrs. Mofford, in consultation with Dr. Morgan, on Tuesday last, and, knowing the importance of a correct diagnois, I weighed every symptom with the greatst care, and was compelled to concur with her attending physician in the opinion that the case was one of typho-malarial fever. From that time to the date of her death Dr. Morgan saw nothing to induce him to change F. L. SIM, M.D. ANOTHER BIG-HEARTED TOWN.

COURTLAND, ALA., August 2.- I notice in your issue of the thirty-first ultimo a commu-nication from Braden, Tennessee, which you raise for being one of the exceptional instances where they have not closed their doors on Memphis. While we do not claim any merit for it, Courtland, though further re-moved, is on a direct line with Memphis, has not nor is she likely to enact any quarantine restrictions in the running of trains-either passenger or treight—passengers from any place stopping off with impunity. The peo ole from the outbreak of the fever have been

D. Langstaff, Esq., President, etc., Memphis My DEAR Six-Last year, while mayor o his city, I received, in answer to appeals for sufferers from yellow-fever in the south, nearly fourteen thousand dollars, all of which (with the exception of some three hundred dollars intentionally reserved for the families of Lieutenant Benner and the watchman on the supply-boat that was sent south, and on which these two gentlemen lost their lives) immediately disposed of by forwarding by express, purchasing such supplies as directed, or by authorizing parties to draw at sight upon me. Whether from death of parties thus authorized, or some other cause, which wenty-five hundred dollars unexpended.

has never been known to me, I found, after settling all accounts, that I still had some This sum I have held in trust until the present time-it having been deposited to my credit as "mayor" at the Western Financial corporation of this city-so that, if any of the drafts should come to hand, they could be honored. I feel now, however, that such an exigency will never arise. I have feared, though, all the while that the dreadful fever might again this summer attack the poor rtunate people of the south, and for this reason have resisted parties cognizant of the existence of such a fund who have apolted for charities not contemplated by the While unfortunately my fears are only too fully realized, it is a matter of profound gratification to me that I can carry out the original wishes of those good people

whose confidence in me made me the medium their love, generosity and mercy toward the stricken of Memphis and other cities. have waited till this moment watching with anxiety the progress of the disease, so that I could the better dispose of and extend, as far groceries, and at lowest cash prices.

All the benefits of the fund thus held HILL, FONTAINE & CO. as possible, the benefits of the fund thus held by me. I feel and trust, however, that there will not be a general epidemic, and for that reason am satisfied that Memphis shou'd redraw upon me at sight for two thousand dolward them to you to the amount above specfied. I called to see you at the Louisvil hotel, and regretted not to find you. I also telegraphed to you at New Albany, whither I understood that you had gone, but received

we are losing millions from crime and ignor-

cate public opinion. Those that have faith for any loss or damage occasioned by quarantine in faisehoods and cunningly advance them have, hitherto, had an abundance of power. Now, why not make use of this season of com parative rest from daily toil to train the people to temperance, to healthful living, to a knowledge of civil government, and the great principles of colitical economy? Is not this a convenient time to teach them the history of our own country, and make them familiar with the perils and sacrifices by which we became a nation? Is not this a time to urge the study of a wholesome and scientific domestic economy on the heads of families? Above all, is not this the time when christians can go out to the camps and hold their bible readings, and make this people to know the law of the Lord? If the minds of the masses were thus constantly drawn to the discussion of life-giving subjects, would there not be less need of police and jails? While

ance, why not do something to instruct those whom the State has thus far left to grope in darkness? There certainly must be many scholars in Memphis who could give, off hand, simple lectures, on each of these subjects, and by letting their "light shine," they will draw down on poor Memphis the blessing of our Heavenly Father. Let a week's programme be somewhat on the following plan:

Sunday-9 a.m., bible reading; 4 p.m., temperance meeting. Monday-9 a.m., duties of civil officers; 4 Tuesday-9 a.m., laws of health; 4 p.m. wednesday—9 a.m., United States history 4 p.m., education of the people essential i Thursday-9 a.m., character of a good business man; 4 p.m., the reed of wise housekeeping. Friday-9 a.m., prohibition the great need of the present hour; 4 p.m., study of the Saturday-9 a.m., the duty of State and church and parents to our youth; 4 p.m., lecture on health. I know that this is a very novel proposa

bat, after all the blunders of the past and present, it is high time to give up old falsehoods and entertain new and wholesom MARGARET HILARY.

ROSSVILLE, TENN. Quarantine Laws Modified So as to Allow Trains Certain Privileges, which the Trains Do Not Seem to Appreciate-Moscow Not

Quarantined-An Interesting Letter. Occasional Correspondent of the Appeal. Rossville, August 3 .- This quiet little place has so far modified its quarantine laws as to allow all trains coming from the east to stop and put off passengers; freight, baggage and the mail, and to allow trains from Mem-phis to put off ice and the mail, but nothing else; but this modification has not been heeded by either the railroad or postoffice authori ties, for there is only one train a day-a rock or gravel train—which passes here at a lively speed about half past ten o'clock in the morning, bound for the ill-fated city; re-turning about half-past three o'clock in the evening in the same manner. Occasionally the engineer or conductor throws off a copy of the APPEAL, without which darkness would reign supreme in this community. Alwhich always tells the sad tale of war or pestilence, yet its contracted pages are replete with news and items of general interest, and from it we learn what is going on in the outside world, as well as of the daily ravages of yellow-fever at home—the greatest of all terrors and horrors to the people of the United States. Moscow, eight miles east of

this place, is the present western terminus of the Memphis and Charleston railroad, which little town has, I understand, now clothe herself in quarantine regalia. From that point the unfortunate Memphian can go to East Tennessee and points north and east, but he cannot change cars or stop over for points north or south at Grand Junction, Corinth, Decatur or Chattanooga, and woe be unto him if he tries it. The citizens here think that Captain Grant, superintendent o the Memphis and Charleston railroad, will that he should be as traceive to stan here: comply with quarantine order No. 2 as he was with order No. 1. The western bound train last Friday threw off a mail bag here, the first at this point in nearly two weeks, how is this for civilization; it is awful on husbands absent from their wives, and almost unbearable to sweethearts and lovers to have their correspondence intercepted and delayed & Thompson-are running short in their THE Arlington (Va.) It is really a pleasant smell, after a "fellah" gets used to it, and these days one can soon get accus-tomed to anything. While the frowns of the Almighty seem to fall heavily upon poor Memphis, his rich blessings are poured out among the farmers of this section of country. What beautiful cotton and corn! Cotton in some of the bottom fields shoulder-high, and heavily fruited. Even the old red clay halls present a beautiful dark-green appearance, covered with King Cotton, whose fleecy sta-ple will soon begin to be harvested. There are enough grown bolls now on each stalk, and matured, to make seven hundred pounds and matured, to make seven hundred pounds of seed to the acre on fair land. Without some unforeseen disaster, the farmers will gather more corn and cotton to the acre than for several years past; they will pay out of

for several years past; they will pay out of debt, and have something left. The neighrush to the schools to improve their minds They care nothing for hot weather; an August sun in the school-room is more desirable than a July sun in the field. Picnics and barbecues are of quite frequent occurrence, especially in the Macon neighborhood, and the young folks care nothing of dancing all day at a barbecue and riding four miles that night to

a protracted meeting. These protracted meetings are being held in nearly every neighborhood, and, I regret to say, with but little success. The spirit of God does not seem to dwell in the hearts and minds of the inners of this community. Something else Morton, four miles southeast of this place, by the name of Crabtree, an employe on his mother's place. Crabtree abused Mox'on's where we will be prepared, within ten days, with mother, and made threats of a murderous nature, which resulted as above. Crabtree died in a very short time after being shot

Morton was tried before Esquire Moore, of this place, and discharged, the evidence being such as to justify him in the deed. I forgot to mention that the Knights of Honor lodge of this place, presided over by Charles Steger, dictator, and W. W. Perry, reporter, is composed of No 1 material, and is progressing finely, and bids fair to have a prosperous career. God speed them in their efforts, and bless this order as well as that of the Aucient Order of United Workmen, who are doing so much good work to their members and families in these dark and distress-ing times. May the noble bands organized as relief committees in your city, presided over by Mr. James B. Cook, of the Knights of Honor, and Mr. William I. You must really excuse this long commu nication, as I only intended when I com-menced to write but a few lines. When I last wrote you, was at Braden station, on the thirtieth ultimo. From 1833 to 1853 we manufactured Gins at Colembus, Georgia, under the firm name of E. T. TAYLOR & Co., afterwards CLEMONS, BROWN & Co.,
and made what was then known as the Teylor Gin.
During the year 1853 we removed to this phase,
where we have been exclusively engaged in manufacturing Gins ever since. Withlong experience,
the best labor saving machinery, and skilled workmen, we possess advantages not enjoyed by any

Molloy, and recorded in book No. 82, page 207, in the office of the Register of Shelby county, Tenn., to secure the debt therein named, I will sell, to the highest bidder, at public sale, for cash, at the southwest corner of Main and Monroe streets, in Memphis or the Taxing-district in Shelby county, Tenn., on

Tuesday, August 12, 1879. is at once harmless and effectual, for preserving the hair. It restores, with the wloss and freshness of youth, faded or gray, black, as may be desired. By its use the hair is thickened, and baldness often though not always cured. It cheeks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality

and strength, and renders it pliable. The Vicion cleanses the scalp, cures and revents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the numors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.
